## Financial Aid & First-Generation Statistics

First generation college student is defined as being the first person in the immediate family to attend college—ie: *neither parent has a college degree*. Prior enrollment reports defined 1<sup>st</sup> generation as *one parent or less* having a college degree.

### Distribution of total SCHs enrolled by each student

Graph 2: Histogram of the Student Credit Hours per student (the vertical axis is the number of students). Students who take between 12 and 18 credits are only charged tuition for the first 12 credits. Because of this distribution and the attendance of dual credit students, only 78% of the SCHs generated are eligible for tuition. Employee tuition waivers decrease this number even further.
